

I am concerned that LPFM broadcast service may interrupt nationally translated stations, specifically KLOVE. I listen to KLOVE in my local area and when traveling and it is very important to me and my family. I know personally many other people in my community and around the country who also rely on KLOVE for family friendly, positive radio programming. It is one of the few stations serving the public interest without commercials and provides music and information that parents can let children can hear without fear of tasteless or inappropriate content. This is invaluable to our communities and families around the country. Please make sure this service continues to be available.
